1101 Market Street
Chattanooga, TN 37402-2801

**SUBJECT: PUBLIC MEETING SUMMARY - BROWNS FERRY UNIT 1 RESTART
PROJECT - BROWNS FERRY DOCKET NO. 50-259**

Dear Mr. Scalice:

This refers to the meeting conducted at our mutual request at your Browns Ferry Site in Athens, Alabama, on November 12, 2003. The meeting's purpose was to discuss the Browns Ferry Unit 1 Restart Project Status. Discussions during this management meeting included the following topics: accomplished work activities to date, schedules for future milestones, responses to challenges, and understanding activities important to NRC oversight and inspections regarding Unit 1. Enclosure 1 contains a list of NRC and TVA attendees and Enclosure 2 is the presentation handout used by you and your staff. The meeting was informative and a beneficial exchange of information. Although it did not result in specific action items or decisions, both sides gained a better understanding of near term priorities.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room (PDR) or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Should you have any questions concerning this meeting, please contact me at (404) 562-4520.

Sincerely,

/RA/

Stephen J. Cahill, Chief
Reactor Projects Branch 6
Division of Reactor Projects
